

Changing Lives Through Excellence

ROTHSCHILD FOUNDATION
HOSPITAL
HEAD AND NECK EXPERTISE

Adolphe de Rothschild Foundation Hospital

Founded in 1905 in the 19th district of Paris, the Adolphe de Rothschild Foundation Hospital is a private health institution of collective interest (ESPIC) specialized in all pathologies of the head and neck for adults and children.

This university hospital offers excellent care at a conventional rate (non-profit) and treats over 400,000 patients every year. It provides the continuum of care, research, and training, conducts 150 clinical research studies, publishes nearly 400 scientific articles, and training around 900 students each year. The hospital is regularly ranked among the best hospitals in France and worldwide and received the "High Quality of Care" distinction from the French High Authority for Health in 2025, with the highest national score.

KEY FIGURES *

330,000
outpatient consultations

27,000
surgical operations

21,000
day hospital stays
(medicine)

23,000
outpatient surgery stays

50,000
ophthalmological
emergency visits

150 research projects
and 300 publications

1,800 employees
(including 400 doctors)

€240 million
operating budget

*2024 data

The Adolphe de Rothschild Foundation Hospital is a member of the Edmond de Rothschild Family Philanthropy network.

INNOVATION AND KEY AREAS OF EXCELLENCE

1st French hospital for **corneal transplants**

National reference center for **retinopathy of prematurity**

1st worldwide **artificial retina** implantation of **AMD** patients

Largest French center for **intravitreal injections** (IVT) in the treatment of **AMD**

The only **pediatric ophthalmic emergency** service in Île-de-France open 24/7

1st French hospital to open a **healthcare access unit** for underprivileged patients in **ophthalmology** (PASS-O)

European leader in mechanical **thrombectomy** for stroke

1st in Île-de-France for treatment of cerebral **aneurysms**

Expert in botulinum toxin treatment for **ENT-related dystonias**

National leader in deep brain stimulation for **Parkinson's and dystonias** (adults and children)

One of three multiple **sclerosis** resource and competence centers in Île-de-France

Among the world's top three for **epilepsy surgery** in infants and children

Only research unit in France offering diagnostic, treatment, and follow-up for **neuro-visual disorders**

1st non-profit private hospital authorized for adult **cochlear implant surgery**

A Specialized Offer for Head and Neck Care

OPHTHALMOLOGY

Comprehensive care for adult and pediatric eye diseases and surgeries: AMD, cataract, glaucoma, retinal, corneal and conjunctival diseases, ocular inflammation, high myopia, orbital and eyelid conditions, neuro-ophthalmology, strabismus.

240,000 consultations

18,290 hospital stays

ENT (Otorhinolaryngology)

Surgery of the skull base, sinuses, ears, cancer treatment, hearing and voice disorders, tinnitus, vertigo, sleep disorders, cochlear implants, oral surgery, and dental implants.

29,000 consultations

6,000 hospital stays

RARE DISEASES

Rare Disease Reference Center (coordinating site)

- Wilson's disease and other rare copper-related disorders

Rare Disease Reference Centers (associated sites)

- Rare neuro-retinal diseases
- CRMR AVANCE (neurological cerebro-medullary vascular malformations) in children and adults

Rare Disease Competence Centers

- Rare conditions in ophthalmic genetics
- Rare ophthalmological diseases
- Keratopathies
- Neuromuscular diseases – North/East/Île-de-France region
- Rare diseases with psychiatric manifestations
- Neurogenetic and rare genetic diseases of the nervous system
- Rare inflammatory diseases of the brain and spinal cord
- Rare epilepsies

24/7 EMERGENCY SERVICES

Ophthalmologic (adult and child)

Neuroscience (stroke, rupture of aneurysm, neurosurgical, adult and child)

IMAGING PLATFORM

4 MRIs (including 1 dedicated to research), 2 CT scanners, 1 Cone Beam CT, 3 ultrasound machines.

45,000 patients annually

HOSPITAL MEDICINE

Care for patients with diabetes, endocrine disorders, spinal diseases, or chronic inflammatory rheumatism. Also includes cardiology and geriatrics.

7,000 consultations

2,300 hospital stays

NEUROSCIENCES

Neurology

Care for diseases of the central and peripheral nervous system (e.g., Multiple Sclerosis, Parkinson's, Alzheimer's), management of strokes and neuro-visual and cognitive disorders.

Interventional Neuroradiology (adults & children)

Treatment of vascular brain and spinal cord malformations (aneurysms, vein of Galen, retinoblastoma...).

Neurosurgery (adults & children)

- Management of intracranial and spinal pathologies, Parkinson's, and movement disorders.
- Treatment of refractory pain through a dedicated surgical-medical center.
- Management of refractory epilepsy, severe dystonia, cancers, and endocrine conditions.

Psychiatry

- Expertise in mood disorders, psychotic disorders, and neurodevelopmental disorders.

30,000 consultations

2,000 strokes treated

20,000 hospital stays

INTENSIVE CARE & ANESTHESIA

ICU care for patients with vital organ failure. Includes a multi-organ and tissue procurement team (PMOT).

6,600 ICU days

Pre-, peri-, and post-operative anesthesia care for adults and children.

21,000 anesthesia consultations

Advanced research, technological innovation, and excellence in training

RESEARCH

The Rothschild Foundation Hospital carries out extensive research activities supported by a dedicated department, certified as a Clinical Research and Innovation Delegation (DRCI) in 2016 by the French Ministry of Health.

- **2nd IN FRANCE FOR CLINICAL TRIALS** and **3rd among** Paris-region hospitals for research promotion.
- **MEMBER OF THE ONLY FRENCH IHU IN OPHTHALMOLOGY** (ForeSight – Institut de la Vision).
- **MEMBER OF THE BRAIN & MIND BIOCLUSTER**
- **ARTIFICIAL INTELLIGENCE AND NEURO-OPHTHALMOLOGY**
2 research programs supported by the Lundbeck Foundation and the Visio Foundation.

- **CELL THERAPY:**
Translational research laboratory in ophthalmology.
- **2019 CO-WINNER** of the national **Hospital-University Research Program** (RHU) for:
 - Emergency stroke care (BOOSTER project),
 - Diabetic retinopathy care (EVIRET project).

INITIAL AND CONTINUING EDUCATION

Advancements in brain imaging, genomics, robotic surgery, and the emergence of artificial intelligence in healthcare are opening up entirely new treatment pathways.

The Rothschild Foundation Hospital is fully engaged in this evolution, leveraging its **highly specialized medical expertise** and **cutting-edge clinical research**. It also invests in **state-of-the-art equipment**: MRI scanners, mobile operating room CT scanner, surgical robot Rosa... Under the label **"Rothschild Medical Development"**, the hospital supports project developers through startup creation, funding and partnership opportunities...

INITIAL AND CONTINUING EDUCATION

- **University teaching:** With a university hospital partnership agreement with Université Paris Cité, the Rothschild Foundation Hospital contributes each year to the initial training of nearly 150 medical residents and numerous externs in medicine and surgery.
- **University and inter-university diplomas co-managed with Université Paris Cité:** 8 diplomas followed by nearly 400 students each year, including non-medical staff.
- **Other continuing education programs:** e-learning platform, simulation-based training, international practitioner training, workshops, lunch & learn sessions, and the "Transmit and Innovate in Orthoptics" training.

Shared expertise in France and Internationally

A REFERRAL AND REFERENCE HOSPITAL

University and hospital partnerships:

- AP-HP (Lariboisière, Bichat, Robert-Debré)
- National Ophthalmology Hospital - Quinze-Vingts.

Medical complementarity agreements in ophthalmology and neurosciences with:

Gustave Roussy, Institut Curie, GH Diaconesses Croix Saint Simon, GHT Plaine de France, GHT Grand Paris Nord Est, Grand Hôpital de l'Est Francilien.

Associative partnerships

to improve patient and family care, promote healthcare and research

activities, and develop humanitarian cooperation initiatives.

COORDINATED PATIENT PATHWAYS ACROSS THE TERRITORY

Synergie Soins Paris Est: A regional hospital group made up of 5 institutions:

- Rothschild Foundation Hospital
- GH Diaconesses Croix Saint-Simon
- Fondation Œuvre de la Croix Saint-Simon
- Fondation de Rothschild
- Fondation Diaconesses de Reuilly.

The Rothschild Foundation Hospital is also involved in regional telemedicine coordination pilot projects for elderly and chronically ill patients (TERRe-Santé).

Agreements with several nearby SMR (follow-up and rehabilitation care) institutions and nursing homes (EHPAD) have been signed to ensure continuity of care pathways for patients.

EXTERNAL CENTERS

Territorial coverage

The Rothschild Foundation Hospital operates external centers:

- Edmond de Rothschild Health Centers:
 - Jaurès site
 - Bauchat-Nation site
- Noémie de Rothschild Clinic
- Noémie de Rothschild Laser Vision Institute
- Argentine Medical Center

STRONG INTERNATIONAL COMMITMENT

INTERNATIONAL PATIENT CARE

The Rothschild Foundation Hospital offers international patients specialized medical and surgical expertise in ophthalmology, neurosciences, and ENT:

- **Personalized** support for each patient and accompanying person;
- **Assistance and follow-up** for administrative procedures;
- **Liaison** with doctors and surgeons during the hospital stay;
- **Tele-expertise:** request a second medical opinion via the PlusOne platform.

HOSPITAL-UNIVERSITY PARTNERSHIPS

- **Hosting** of foreign practitioners and students in training;
- **Training missions** abroad by Rothschild Foundation Hospital staff;
- Clinical research **cooperation** (multi-center protocols, data sharing...);
- **Several partnerships have been established, notably with:**
 - UCLA (Los Angeles)
 - Jules-Gonin Eye Hospital (Lausanne)
 - Cheikh Zaid University Hospital (Rabat) with the Adolphe de Rothschild Foundation Center - Rabat
 - Mohammed VI Foundation for Health Sciences

HUMANITARIAN COMMITMENTS

Faithful to its values of humanism, knowledge transmission, and commitment, the Rothschild Foundation Hospital leads several cooperation programs, notably in:

- Rwanda
- Benin
- Angola
- Union of the Comoros
- Moldova

The International Patients Office was awarded the French Hospital Quality label in June 2023.

Transmit, innovate and commit to the Adolphe de Rothschild Foundation Hospital

Support us

As a private non-profit healthcare institution recognized as being of public utility, the Rothschild Foundation Hospital has been authorized to receive donations and legacies since 1909.

Public and corporate philanthropic support is essential and acts as a true driver of progress, giving physicians and researchers at the Rothschild Foundation Hospital the means to innovate in care, research, and improving patient quality of life in the hospital.
